ERP & Frappe apps

Official Frappe Framework apps (ERPNext, Frappe HR, Frappe CRM, Helpdesk and Insights) alongside 15 custom Frappe apps shaped around specific trades. Browser-based, cloud or on-premise, with zero per-seat licence fees.

FRAPPE SUITE + CUSTOM	PER-USER LICENCE FEE	TYPICAL GO-LIVE	HOSTING OPTIONS
ERPNext, HR, CRM + 15 trades	Zero (open-source core)	2-8 weeks depending on scope	Cloud, Frappe Cloud or LAN

Scope & deliverables

- **Standard Frappe suite:** ERPNext (finance, stock, buying, selling, BOM), Frappe HR, Frappe CRM, Helpdesk, Insights & LMS.
- **15 custom Frappe industry apps:** Modular bench apps for cold stores, mandis, poultry, feed mills, pumps, construction, schools & clinics.
- **Single-entry accounting:** Custom DocTypes post straight into ERPNext stock ledgers, party balances and tax accounts.
- **Print Designer & hardware links:** English/Urdu/Arabic printouts plus biometric clock, weighbridge and barcode scanner connectors.
- **Data migration & training:** Opening balances imported from Tally/QuickBooks/Excel, parallel run, and EN/UR staff training.

When clients bring us in

- Per-user SaaS licences or disconnected HR, CRM and accounting tools are holding growth back.
- Generic ERP screens cannot track your trade units (chamber racks, patti, flocks, plots or BOQs).
- Owners want live branch stock, HR payroll and party balances under one browser login.

How an engagement runs

- **1. Register & DocType mapping.** Review your physical books, approval limits, print formats and chart of accounts.
- **2. Configure Frappe bench & data.** Install chosen Frappe apps, configure custom DocTypes and import clean opening balances.
- **3. Parallel run & training.** Train each role in English or Urdu and run beside old registers until figures match cleanly.
- **4. Go-live & AMC support.** Switch over cleanly with ongoing support, backups and upgrade-safe custom app maintenance.

Frappe Framework suite & 15 custom industry apps

SUITE / SECTOR	APPS & OPERATIONAL COVERAGE
Official Frappe apps	ERPNext, Frappe HR, Frappe CRM, Helpdesk, Insights, Lending, LMS, Healthcare & Education
